# ENTHUSIAST COLLECTION

CONCEPT & PROTOTYPE VEHICLES

EXCLUSIVE OFFER TO SHELBY CUSTOMERS

This exclusive booklet is dedicated to all of you that are Shelby enthusiasts wishing to add to your collection and continue the Shelby legacy. This short list of very special cars is something that you really can't miss.

We recently moved to our new World Headquarters off of the Las Vegas strip and we are excited about the increase in exposure and traffic for both our new Heritage center and retail store. We certainly encourage you to come and visit our new digs. We think that you will be impressed.

The Shelby vehicles found in this exclusive offering are a representative sample of some of the most significant cars that we have built. We would rather see them put into homes and collections where they will be used and cherished rather than sitting in our warehouse. Carroll's favorite car was always "the next one" so to make room in our garage for "the next ones" we are offering you the opportunity to score a real barn find right in front of your eyes.

Please contact the sales team should you have an interest in any of these special cars. See our phone number and web site listed at the bottom of the page.

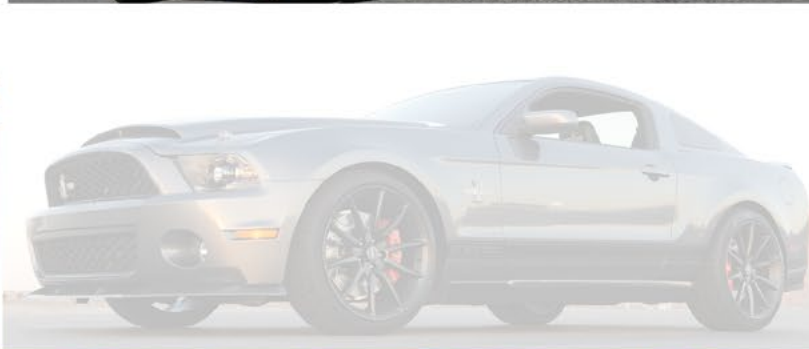

Best regards,

Gary Patterson  
VP Sales and Marketing – Shelby American Inc.

# SHELBY GT

## 2007 Shelby GT Prototype

CSM - 07SGT02P

Asking Price - \$175,000

This car is a company demonstrator and development car. It was featured in much of the original sales and promotional materials. There was a white Shelby GT and a black one. Ford Motor company used it during the original promotion shots taken at the Valley of Fire, dry lake bed and at the Las Vegas Motor speedway. Once its work was done it was featured in our Museum at the speedway. It was then the first production Shelby to receive a wide body modification and it was again featured in the sales literature to promote 05-09 Wide Body modifications and the parts kit. Detailed literature and unique digital images are included in the sale of this car.

## 2010 Shelby Super Snake Concept

CSM - 10SS0001C  
Asking Price - \$175,000

This was the first of the latest retro body style Super Snakes. It was built by Shelby American as the first Super Snake of the revised body style in 2010. It was featured on the cover of the Shelby Annual magazine along with a lengthy article for 2009. At 750 emissions legal HP, it was the monster of its day.

- Featured in the Shelby Museum
- Used as a testing and development car
- A featured car in the company's sales collateral
- Includes Certificate of Authenticity noting vehicle history and specifications

## 2011 Shelby Super Snake Prototype

CSM - 11SS0002P  
Asking Price - \$200,000

This car was a company demonstrator / development car for the 2011 Super Snake program. It was featured on the Velocity TV show in Episode 2-3 with Gary Patterson driving at 180+mph in testing during this TV series. This was the last of its kind featuring appearances with our founder Carroll Shelby. This car is featured on much of our sales and promotional literature.

- Featured in sales and promotional literature
- Featured in the company single issue magazine publication
- Used as a test and development car
- Includes a certificate of authenticity noting history and specifications
- Featured as a display vehicle in the Shelby Heritage Center

# SHELBY GTS

## 2011 GTS Concept

CSM - 11GTS0001C  
Asking Price - \$99,000

This car features a 475HP supercharged V6 engine with manual 6spd transmission. It was the first V6 Shelby GTS with a Supercharger and it has been featured in numerous ride and drive exhibitions and in sales literature. It was featured in magazine articles where it ran 0-60 in 4.4 seconds and covered the quarter mile in 12.8 seconds @ 112mph. This is strong performance by any standards, let alone a V6 Mustang.

- Featured in sales and promotional literature
- Featured in the company single issue magazine publication
- Used as a test and development car
- Includes a certificate of authenticity noting history and specifications
- Featured as a display vehicle in the Shelby Heritage Center

# SHELBY GTS

## 2012 Shelby GTS Wide Body Prototype

CSM - 12GTS0001P  
Asking Price - \$150,000

This car was the first Wide Body of the new 2010 to 2014 body style cars. It is a 5.0 liter V8 naturally aspirated engine with 6 spd manual transmission. The GTS has a custom Shelby front fascia, grill and hood. It has gauges, custom interior, suspension, Wilwood brakes on all 4 corners and Borla exhaust. The tires are Michelin Super Sports with 345's in the rear and 275's up front.

- Featured in sales and promotional literature
- Featured in the company single issue magazine publication
- Used as a test and development car
- Includes a certificate of authenticity noting history and specifications
- Featured as a display vehicle in the Shelby Heritage Center

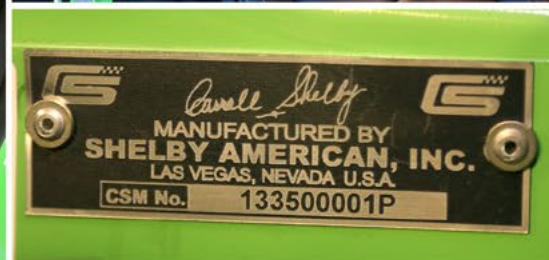

## 2013 GT350 Prototype

CSM - 133500001P  
Asking Price - \$150,000

Shelby American built this as the first show car for the 2013 model year. It was built featuring the optional polished 642HP supercharger, 4 piston rear brakes, cooling package and premium interior. Shelby chose to make it a color that would stand out in a crowd and get attention where ever it went so Gotta Have It Green was chosen.

- Featured at the Detroit Auto Show in January 2013
- Featured on the front cover of the Shelby Annual magazine for 2012 including a full featured article inside
- Featured on display in the Shelby Museum
- Featured at the Nor Cal SAAC event in Sonoma, CA 2012
- Featured in several magazine and blog articles completed by a variety of journalists
- Featured as the lead car on our GT350 promotional collateral
- Performance specs, 0-60 in 3.7 seconds with quarter mile in 11.62@122mph with 1.05g on the skid pad
- Includes Certificate of Authenticity noting vehicle history and specifications

# Shelby

## SHELBY

### HERITAGE CENTER

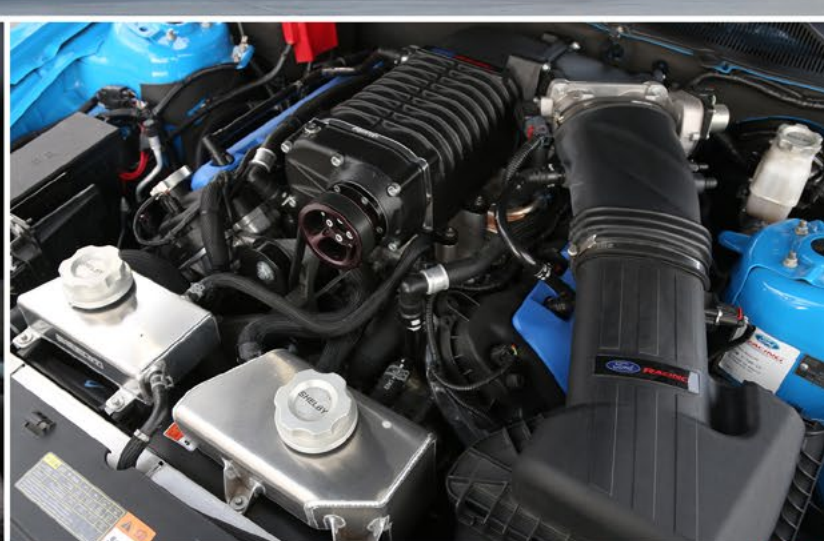

## 2013 GT350 Prototype

CSM - 133500002P  
Asking Price - \$150,000

This car was put together as a track use demonstrator. In the end it was not used all that much. It features a 624HP supercharged engine, premium interior with Recaro seats, gauges, and 6 piston Wilwood brakes in the front and 4 piston calipers in the rear. It was featured in the 2013 sales literature and is one of the Heritage center show cars.

# SHELBY RAPTOR

## 2013 Shelby Raptor Concept

CSM - 13SR0001C  
Asking Price - \$125,000

This truck is one of two company demonstrator / development vehicles. The Shelby Raptor package features a 575HP supercharged and inner cooled 6.2 liter engine, gauges and full Shelby interior and graphics. It is featured in our sales literature and has attended many shows and events. Of the two company trucks, this one is fully optioned. This one features optional Shelby Method wheels, Stealth bumpers, LED bumper lights, front and rear LED rack lights, King Shocks, frame strengthening, Upper and lower control arms, spare tire, engine / trans and rear skid plates, HID head lights, navigation, and premium stereo.

- Featured in sales and promotional literature
- Featured in the company single issue magazine publication
- Used as a test and development vehicle
- Includes a certificate of authenticity noting history and specifications
- Featured at shows and events throughout the country
- Comes with a CD of digital images

# SHELBY FOCUS *ST*

## 2013 Focus Concept

CSM - 13SF0001C  
Asking Price - \$50,000

This Shelby Focus features a 260HP turbocharged and intercooled 2.3 liter 4 cyl engine. This Shelby features a custom interior, 18" Michelin tires, Wilwood brakes, Eibach suspension, Hydro dip styling cues throughout the exterior and engine compartment, engine mounts and performance Shelby hood. This was the car that we debuted at the Detroit Auto show, and then followed the Shelby road tour throughout the year ending up in the Shelby Heritage center at our new facility in Las Vegas. This car is featured in various publications, in our sales literature and on the web site.
